REVOCATION/ERROR IN SMALL ENTITY STATUS

Commissioner for Patents
Washington, D.C.

SIR:

Small entity status for this application was initially established when the application was filed and the initial filing fee paid. Since then, an assignment of the invention to a large entity is pending. However, while it is believed that small entity status was proper at the time of filing as there was no assignment or definite obligation to assign the invention to a large entity, in order to avoid any question of the propriety of the initial small entity status, applicant hereby revokes the small entity status which it was initially afforded.

All future transactions in connection with this application will be of large entity status.

Date: May 21, 2003

Respectfully submitted,
